

BĂLTĂREASCA

Romanian

PRONUNCIATION: buhl-tuh-REAH-skah

TRANSLATION: From the swamp (or marsh)

SOURCE: Dick Oakes learned this dance from Sunni Bloland who learned it during her 1967-68 research trip to Romania from Anca Guirchescu, dance ethnographer at the Institute of Ethnography and Folklore in București (Bucharest). Ms. Bloland introduced the dance to folk dancers in the United States at the 1969 Balkan/Near-East Festival in Portland, Oregon.

BACKGROUND: Băltăreasca, formerly danced by men only, is from the villiage of Traian, Județ Teleorman (Județ means "county") in the southern Romanian ethnographic region of Muntenia, about five miles west of Turnu Măgurele. It is danced on any village dance occasion. Băltăreasca is characteristic of the many stamping dances of this region of Romania and includes another common element, the "vîrf-toc" (literally, "lift-heel," which may be likened to a hop in which the toe does not leave the floor, followed by the heel being placed forcefully down). Muntenia is also known in English as Greater Wallachia, and is a historical province of Romania, usually considered Wallachia-proper (Muntenia, Țara Românească, and the seldom used Valahia are synonyms in Romanian). It is situated between the Danube (south and east), the Carpathian Mountains (the Transylvanian Alps branch) and Moldavia (both north), and the Olt River to the west. The Olt is the border between Muntenia and Oltenia (or Lesser Wallachia). Part of the traditional border between Wallachia / Muntenia and Moldavia was formed by the Milcov River.

MUSIC: Naroc Records (7"EP) NA 1054-EP, side B, band 2.

FORMATION: Closed cir of mixed M and W with hands joined and held with bent elbows at shldr level in "W" pos.

METER/RHYTHM: 2/4

STEPS/STYLE: VÎRF-TOC: Literally, "lift-heel," may be likened to a hop in which the toe does not leave the floor, followed by the heel being placed forcefully down. It is usually followed by a stamp or step with the other ft. All steps are small, quick, and sharp. All stamps are without wt.

Arm movements are somewhat difficult and may require much practice and may require much practice to coordinate them with the steps. Because the arm movements are continuous and, thereby complicated, they are notated separately following the pattern description.
